Student Board of Publications — Waterloo Lutheran University

Our Chancellor, Senator W. Ross MacDonald

TO THE STUDENTS OF WATERLOO LUTHERAN UNIVERSITY

In greeting you for the first time through Keystone, it is my happy privilege to offer to you my warmest greetings and my sincere good wishes. Our University has a comparatively short but a proud historical background of more than fifty years. Some of those who have studied here have achieved fame not only in Canada but also in other lands.

To the student of today who conscientiously pursues his studies and is loyal to the great traditions of the University and faithful to its high ideals, the opportunity for service both at home and abroad was never greater. I wish you well.

The President: William J. Villaume, B.A., B.D., S.T.M., M.S., Ph.D.

To the Graduates of 1966:

"Give me a place to stand and I will move the world", boasted the Greek mathematician Archimedes. He conceived of the lever and the increase in mechanical power it could produce.

Every man has abilities that constitute a lever to "move the world", or at least change it for better or worse. Your years at Waterloo have endowed you with knowledge and, we hope, wisdom. They have enhanced your ability and improved your leverage.

To what end? If you have acquired some perspective on life and some appreciation of the problem of man's inability to get along with man on this turbulent globe, your leverage will be activated by love for God and fellowmen.

A university is only as great as its alumni—the depth of their understanding, the values to which they cling, the love they share, the life they live, the destiny they seek, and the dreams they dream. Move the world each day as though it were your last, and you will reflect honour upon yourself and your alma mater. Godspeed!

TO THE GRADUATES OF 1966:

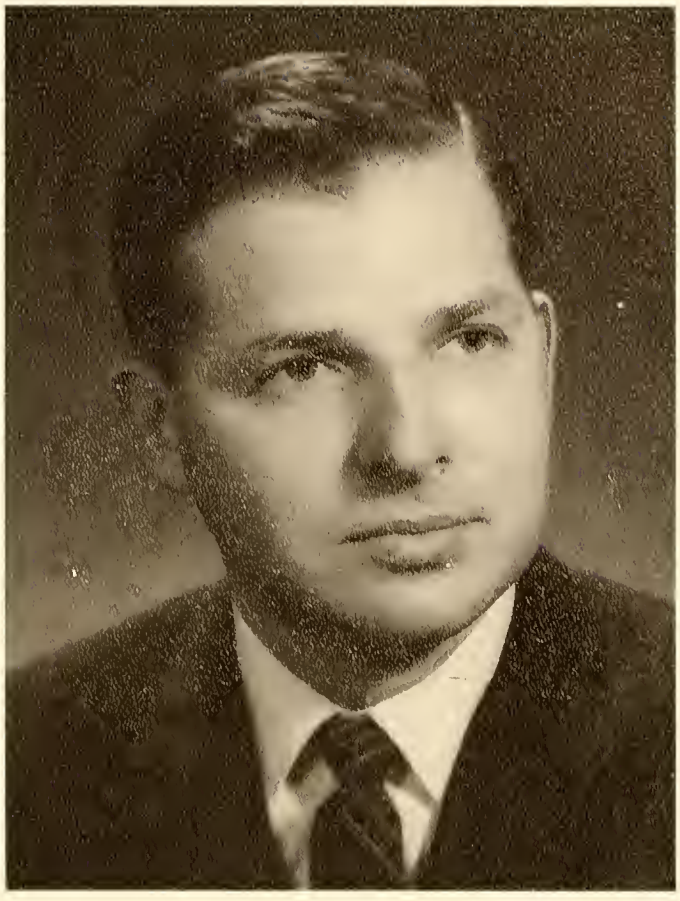

There are those who claim that youth is the same from generation to generation. Anyone who has spent a decade or more on a university campus finds this assumption difficult to accept. Ten years ago the silent generation was being urged to make itself heard. Then the beat generation appeared on the scene and was accused of being unconcerned about everything. Today's students are not only highly audible but also vitally concerned as events at many universities during the past year clearly indicate.

The older generation is happy to see this change. It indicates that students realize they have a responsibility for the shaping of the future. It is our hope that you will not be satisfied with merely criticizing, complaining and protesting but will become involved in establishing a new social order through giving yourself in service.

Dean of Women
Esther J. Brandon, B.A., M.A., Ph.D.

"The set of the sails, not the gales, determines where we go." May your years at Waterloo help you to steer a true course in the challenging years ahead.

Dean of Students
F. J. Speckeen, B.A., B.D., Ph.D.

Very best wishes to each of you, particularly the graduating students. Your contributions to W.L.U. will always be appreciated by this office.

Registrar

THE REV. J. RAY HOUSER

TO THE SEMINARY CLASS OF 1966 :

You are now graduates of Waterloo Lutheran Seminary, an institution which a very small group of committed Christians bearing the name of the great reformer established fifty-five years ago and which their heirs have perpetuated through succeeding years oftimes with great personal sacrifice to prepare men for the ministry of their beloved church.

Soon this church by the rite of ordination will "separate" you from its other laity "by prayer and the laying on of hands" that you may give yourself wholly to the proclamation of God's Word, to the administration of the Sacraments and to the pastoral care and service of God's people. This historic apostolic ministry commissioned by Christ will not disappear from the life and work of the church. To think otherwise is nonsense. In our rapidly changing world new forms of ministry will undoubtedly emerge but none will supplant this specific ministry.

In recent decades a new insight has been given to ministry by biblical scholars, namely . . . that to the minister is also given the work of directing the total activity of the church so that it fulfills its corporate mission to mankind. "The church is mission and 'its minister' is its servant directing it in its service to the world." To the entire people of God he must set an example of what their ministry in the world really is. He is a minister to ministers. He must prepare laymen to perform their individual and collective ministry within the church and world. To every Christian at baptism is committed ministry but to him who is "set apart", "ordained", is particularly given the ministry of "equipping" the saints for greater involvement in the life of the world, where Christ walked and won the victory of faith, where He now is Lord of Life—all of it, the whole universe. This new insight to ministry we commend to you.

Into such a ministry you now go. Christ is with you. Remember His kingly word: "Be of good cheer; I have overcome the world." Enter into the Joy of your Lord. Our prayers follow you.

Affectionately,

J. Ray Houser,
Principal.

PROGRAM FOR DIPLOMA IN BUS. ADMIN.

DR. BRANT BONNER

INTERNATIONAL BUSINESS

The International Business Program is designed to help meet the need for management development in the emerging nations. It is an outgrowth of field surveys conducted by the university in Western Asia and Africa during the summers of 1964 and 1965 under sponsorship of The Charles J. Strosacker Foundation, Midland, Michigan.

The program leading to the Diploma in Business Administration combines on-campus study of the elements of administration, observation of Canadian industrial practice through plant visitation and seminars with management and finally on-the-job management experience in an industry of one's choice. During a Christmas trip to New York City, the International Fellows had an opportunity to view the headquarters operations of such prominent world-wide organizations as International Business Machines Company, International Paper Company and Chas. Pfizer & Company, Inc.

In co-operation with the Canadian External Aid Office, 41 persons from 23 nations have come to Canada to take part in the program. Average age of the group is 30. Most are engaged in business in their home countries, with some owning their own companies.

Waterloo Lutheran University salutes the International Fellows, not only for having done their work in most commendable fashion, but also for what they have accomplished as "ambassadors" in bringing to the campus and to their community at large, a better understanding and appreciation of their home lands.

PRESIDENT'S MESSAGE

The structure of a university with its academic, social and intellectual societies helps in the maturing of each student. It provides the atmosphere in which we can question and challenge our own and other's beliefs thereby helping us to formulate more concrete ideas and principles to take out into the world.

The rapid growth of our university has had several repercussions which have combined to lessen its potential in providing a true community of learning atmosphere on this campus. Foremost among these is the failure to centralize our clubs and organizations which are the backbone of any campus. Secondly, this campus requires more recreation facilities and a centre for all the members of the college family — students, faculty, administration, alumni and guests. What is needed is an adequate Student Union Building which can provide the unifying force essential to our campus. It should be the student social, cultural and governmental centre for the university. It is for these reasons that I strongly urge the future student leaders and students of Waterloo to work hard and to support a campaign for a "new" Student Union Building.

Graduation represents a major accomplishment for all of us, but the real test will come when we try to attain our own individual goals in the quest for self satisfaction. Graduates, I wish you luck in your pursuit of success, and to those who remain, I hope that you will continue to reap the benefits of university, well maintaining its high standards and traditions.

What price education?

It is beyond price! Education cannot be bought, borrowed, or inherited. The only way to obtain it, is to earn it. Stelco recognizes its value, and the increasing need for it, in today's highly-competitive atmosphere . . . and also recognizes that specialized education is denied to many deserving young Canadians through lack of funds. This is why Stelco sponsors a program of assistance to universities, technical schools, and students across Canada, by providing awards, scholarships and bursaries in Technology, Engineering, Science, Business Administration, Teaching, Commerce, and Finance.

For further information on this program, or on a career in steel, write to Stelco's Head office in Hamilton, Ontario.

Soft drinks in cans add to the fun.

Parties are more fun with cold soft drinks from cans! Your picnic cooler holds more because cans take so little space. Because metal is such a good conductor (check your science teacher on that!) soft drinks in cans cool *fast*. Open the can and you hear a w-o-o-sh of air that tells you this is *fresh* refreshment. Slip in a straw and sip from the can—or pour it into a glass. However you drink it, you'll enjoy soft drinks more from air-tight, light-tight cans. When you've drained every drop, just toss the empty into the trash container instead of hauling it back to the store. So next time—get soft drinks in cans.
